This figure displays a 5x6 grid of 30 grayscale images of the Moon, showing its phases and features. Each image is labeled with a time stamp (e.g., 21:59:49 UT) and a position (e.g., S, W, E, N). The images are arranged in a grid, with the time stamps increasing from left to right and top to bottom. The positions are labeled as follows: S (South), W (West), E (East), and N (North). The images show the Moon's surface, including craters, maria, and the terminator. The phases of the Moon are visible, ranging from a thin crescent to a full moon. The grid is labeled with time stamps and positions as follows:
