

International Workshop on Sharing, Citation and Publication of Scientific Data across Disciplines

Joint Support-Center for Data Science Research (DS), Tachikawa, Tokyo
5–7 December 2017

Scope of Workshop:

The Workshop will focus on recent topics of interest in the field of scientific data, which are attributed to play a crucial role in global trend on accelerating "Open Science" and "Open Data". Contributions from all scientific disciplines are welcome, including life and bio science, social and human science, as well as polar science. Inter-disciplinary orientated topics on data management are especially encouraged.

Session Themes :

- a) Data Center - Best Practise & Activity, b) Database, Data System - Network & Administration,
- c) Data Sharing & Inter-Operability, d) Data Citation & Publication, Data Journal,
- e) Future of Data Sharing, Citation & Publication across Discipline

Website :
